

Class Information Year R

Autumn Term 2025

I hope you find the following information helpful.

This will give you an overview of what your child will be learning this half term for English, Maths, Phonics and RE. We will also provide 'Knowledge Organisers' for the remaining subject areas.

If you have any questions about anything your child will be learning, do contact me via Class Dojo.

Thank you
Mrs Williams

PE - Friday

PE kit to please be worn to school on a Friday. Children need to wear PE kit as per the school prospectus; making sure to have a jacket and joggers in case PE is outside. You must ensure that earrings are not worn and long hair is tied back for children's safety. Thank you.

Water bottles and snack

Children need to bring with them a named water bottle filled with water each day. We will refill the bottle as needed in school and then send the bottle home to be washed.

Children have free fruit/vegetables available to them each day for snack time. You are welcome to send your child in with an additional snack, but please be aware that this must be healthy and nut free; for example fruit, cheese or rice cakes. Thank you.

Dojo

I will use Dojo to do the majority of my communication to you. If you need to ask a question of me, please message me on Dojo. I will be checking this as often as possible. If the message is urgent or about your child's absence, please contact the office via the telephone. Thank you.

Homework

Children will have new 'Homework Challenges' that they can complete during the half term. You will receive information about this separately.

English

This half term we will continue to rehearse our oral story telling skills through our new story 'The three little pigs' by Pie Corbett.

Children will have the opportunity to write, draw and discuss the events, characters and settings.

We will continue to have daily phonics sessions.

Within these sessions the children will have the opportunity to practise and rehearse reading words using the sounds previously taught.

Maths

We will continue to focus on numbers 0-5. We will look specifically at number bonds, adding one more and subtracting one less.

Children will have lots of opportunity to explore number through independent investigation as well as in guided groups with an adult.

RE

We will be focusing on the topic of Christmas and thinking about the question; What is Christmas? This will involve exploring Christianity.

Children will have the stories, join in with activities based around the

opportunity to listen to discussions and complete weekly topics.
