## Weekly Newsletter - 28th January 2022

Hello everyone,

We are taking part with 'Number Day' on Friday 4th February 2022. Please come into school dressed as something with a number. We are kindly asking for a £1 donation which can be made via ParentPay. All donations are to go to NSPCC. Thank you for your support.

Parent Consultations:-

Tuesday 22nd February (3.30pm-5pm)  
Wednesday 23rd February (4pm-7.30pm)

Unfortunately due to the prevalence of COVID-19, we have made the decision to revert back to virtual parent consultations in February. We understand that this may cause disappointment, but when cases have declined, we plan for each class to invite parents in to look at their child's books and join us for a cup of tea and a chat. We thank you for your understanding.

Further details of how to sign up for a virtual parent consultation slot will follow in the next couple of weeks.

Please remember that school registration is **8.50am** prompt.

If you have any concerns, please telephone or email the school office. We will keep you informed of your child's progress or any other incidents which happen in school. As always, we want to ensure that your experience at Clenchwarton Primary is a positive one. If you have any concerns, in the first instance, please telephone or email the school office.

If your child is not well or has an appointment, it would be appreciated if you could kindly inform the office and not put messages of these types on Class Dojo. **If you have changed your mobile telephone number, please could you inform the school office of this.**

Best wishes

Ms J Borley  
(Executive Headteacher)

# MATHS AT HOME

## How to get your family doing maths for fun

Improve your family's maths skills and have fun while you're at it. The charity Maths on Toast, who're all about helping families with this, have come up with some brilliant advice and ideas:

### Five Golden Rules

#### Maths is everywhere

You use numbers when cooking, shopping, and telling the time. Try spotting the different shapes in the buildings around you. The more you look, the more you will see.

#### Being wrong is OK

Don't feel bad about mistakes - they are part of learning. If you get the wrong answer, then talk about it. How did you get there? Can you now come up with a better way to work it out?

#### Believe in your own ability

Everyone has the potential to understand and enjoy maths. If you don't feel confident, this is more likely to have come from your life experience than your genes. Avoid suggesting that people in your family aren't good at maths. Your children will believe it, and make it come true.

#### Struggling is normal and healthy

If you can't figure something out straight away, then you're not alone. In fact, you are sharing an experience with professional mathematicians. It's their job to get stuck on hard problems - sometimes for years! One way to come unstuck is to keep trying different methods.

#### Talking about 'how' is interesting

Different people bring different talents to maths, and they solve problems in different ways. If you ask someone else how they worked something out, you'll probably learn something new.

### Activity ideas

#### I Spy... numbers and shapes!

While you may have played I Spy with letters, have you played it with numbers and shapes? The first player says 'I spy with my little eye something that's...' and adds a shape, or a number. The other players then guess what the first player has spotted. Six legs on a fly? Five fingers on a hand? The triangle of a STOP sign? Whoever guesses right, goes next.

#### Supermarket challenge

When you get to the checkout, ask everyone to estimate how much you've spent. See who's closest - and ask them how they worked it out. Can you do better next time?

#### Guess the number

You can make this game as easy or hard as you like. Start by only allowing whole numbers from 0-20. When you've got the hang of it, stretch yourselves by including bigger numbers, or fractions - and even numbers below zero.

1. One player leaves the room (or covers their eyes and ears). The others choose a number.
2. The player comes back in, they have to work out what the number is, using only yes or no questions. For example, is it an odd number, or is it more than 20? The aim is to work it out in as few questions as possible. When they've got it, it's someone else's turn.

## **NORFOLK CONSTABULARY INTERNET SAFETY WEBINARS FOR PARENTS AND CARERS.**

***Dear Parents / Carers,***

***Keeping children safe online is a huge priority for us within the Norfolk Constabulary's Youth Engagement and Safer Schools Teams. The internet is an amazing tool, however, many of the issues the Police deal with when it comes to young people involve online behaviour. The recent Ofcom "Children and parents: media use and attitudes report" (2021) found that 97% of children aged 5 - 15 watch content on video sharing platforms. Only 30% of parents use controls to restrict their children's access to inappropriate content and just over half of 12-15s have had some form of negative online experience.***

***One of our Safer Schools Support Workers, along with a Safer Schools Police Officer, will be running some webinars on the dates below in which we will provide advice and guidance for parents and carers about how to keep their children safe online. We will talk about the apps and websites young people are likely to be accessing and the risks they face when using these. We will highlight some of the things that parents and carers should be aware of that might indicate that their children are experiencing difficulties online and we will give advice on what to do about this and how to have conversations about internet safety. We expect the webinar will last around an hour and there will be the opportunity to ask any questions you may have about the subject.***

### **Dates Available.**

***Monday 7<sup>th</sup> February at 12:00pm***

***Wednesday 9<sup>th</sup> February at 12:00pm***

***The webinar will be held on Microsoft Teams. Please email the Youth Engagement Team mailbox [YouthEngagementEvents@norfolk.police.uk](mailto:YouthEngagementEvents@norfolk.police.uk), stating the date you wish to attend and we will send you the link to the meeting. (Please note, you should just be able to click on the link in order to access the meeting. You do not need to download the Microsoft Teams app!)***

***We look forward to seeing you there.***

**Earrings.** Ideally pupils will remove earrings however, pupils unable to remove earrings should make them safe by taping, front and back, which may offer a measure of protection. The taping should be sufficient to prevent the stud post penetrating the bone behind the ear should an unintentional blow be received from equipment such as a ball or a person. The taping may be done at home for younger children (as stated Safe Practice in PE and School Sport and Physical Activity 2016).

Morning Club Spaces are available for the morning club which runs everyday in the hall from 7.40 am-8.40 am. If you would like your child to take part. Please email [office@icscoaching@gmail.com](mailto:office@icscoaching@gmail.com) or telephone 077655601690 . If your child is not attending an afternoon club for any reason, please inform the school office with the reason. Thanks.

## ICS Coaching | Clenchwarton Morning Club

Clenchwarton Primary School are proud to announce that ICS Coaching will be running morning clubs every day of the school week. The Club will start at 7.40AM and finish at 8.40AM when the children will be sent to their classes.

The clubs are designed for children who are interested in participating in extra sporting activities and to help parents out with childcare provision.

All days will be Multi-sports which gives children the opportunity to play traditional and unique sports and this will be compliant with current COVID safety precautions. The club will take place either on the school field, playground or sports hall depending on the weather on the day. Children should turn up in their PE kits and bring their school clothes to change into at the end of the session.
