IMPORTANT INFORMATION

Penalty Notice Fines for School Attendance are changing!

With the introduction of the new National Framework for Penalty Notices, the following changes will come into force for Penalty Notice Fines issued **after 19th August 2024**.

Per Parent, Per Child

Penalty Notice Fines are issued to each parent, for each child that was absent. For example: 3 siblings absent for term time leave, would result in each parent receiving 3 separate fines.

National Threshold

There will be a single consistent national threshold for when a penalty notice must be considered by all schools in England of 10 sessions (usually equivalent to 5 school days) of unauthorised absence within a rolling 10 school week period. These sessions do not have to be consecutive and can be made up of a combination of any type of unauthorised absence. The 10-school week period can span different terms or school years.

First Offence

The first time a Penalty Notice is issued for unauthorised absence the amount will be:

- £160 per parent, per child paid within 28 days.
- Reduced to £80 per parent, per child if paid within 21 days.

Second Offence (within 3 years)

- The Second time a Penalty Notice is issued for unauthorised absence the amount will be:
- £160 per parent, per child paid within 28 days.

Third Offence and Any Further Offences (within 3 years)

- The third time an offence is committed a Penalty Notice will not be issued and the case will be presented straight to the Magistrate's Court. Prosecution can result in criminal records and fines of up to £2,500.
- Cases found guilty in Magistrates' Court can show on the parent's future DBS certificate due to 'failure to safeguard a child's education'.

IMPORTANT INFORMATION

Administration of Medicines at School

If your child needs prescribed medication/inhalers during school hours, please make sure a medication form is filled out. For asthma, a separate individual healthcare plan also needs to be filled out. These can be found on our website following the link below or from the school office.

<https://www.clenchwartonprimary.co.uk/page/?title=Downloadable+Forms&pid=45>

The form and the medication then needs to be handed in at the office. Please make sure the medicine is in the original container with the prescription label attached. This way we are able to check that the information and medication are correct before passing onto the class staff.

Please note; we are unable to administer medication that is not prescribed such as Calpol or Nurofen. If your child does need non-prescribed medication during the school day, we ask that you arrange to come in yourself to administer it.

Thank you.

What Parents & Educators Need to Know about SHARING INTIMATE IMAGES

An intimate image depicts sensitive – often sexual – content, and sharing these photos or videos is commonly known as 'sexting'. As of January 2024, it is a criminal offence to distribute any intimate images shared by a third party without consent, with offenders facing prison time. Naturally, misuse of intimate images can lead to emotional distress and reputational damage.

WHAT ARE THE RISKS?

EMOTIONAL DISTRESS

Victims of the misuse of intimate images and so-called 'sextortion' (blackmail involving sexual material) often experience significant emotional distress. The threat of having these photos or videos shared publicly can lead to anxiety, depression and a sense of helplessness. This emotional turmoil can affect daily life, academic performance and personal relationships.

DAMAGE TO REPUTATION

Intimate images being made public can severely damage a person's reputation. This can lead to bullying, social ostracisation and long-term impacts on personal and professional relationships. If a blackmailer gets their hands on any intimate images, the fear of reputational damage can also make a victim far more vulnerable to ongoing extortion.

PRIVACY VIOLATIONS

Once intimate images are shared online, it can be difficult to quickly control where they wind up and who else sees them. This loss of privacy can have lifelong repercussions, including identity theft and persistent online harassment.

FINANCIAL EXPLOITATION

Perpetrators of sextortion may demand money from victims under the threat of releasing their intimate images publicly. This can lead to severe financial problems for victims and their families, compounding their emotional and psychological distress.

LEGAL CONSEQUENCES

If a child or young person creates and/or sends intimate images to others – especially adults – this is considered a form of child abuse under UK law. Having to disclose this type of abuse, although necessary, can be harrowing, leading to further trauma. It's crucial for parents, carers and educators to understand the legal processes and be able to provide proper guidance and support.

TRUST ISSUES

Sharing of intimate images without consent can lead to long-term trust issues. Victims may find it difficult to trust others, impacting future relationships and their ability to form healthy, supportive connections. This erosion of trust can have profound effects on mental health and social wellbeing.

Advice for Parents & Educators

FOSTER A CULTURE OF OPEN COMMUNICATION

It's vital to encourage open communication with children and young people about the dangers of sharing intimate images. Create a safe space where they feel comfortable discussing their online activities and any concerns they may have without fear of judgement. Be sure to respond to any worrying information with an attitude of support and learning.

PROMOTE DIGITAL LITERACY

Digital literacy is incredibly important for children and young people to understand how to protect their privacy online. Teach them about secure online practices, such as using strong passwords, enabling privacy settings and recognising suspicious behaviour. This empowers them to be proactive in terms of their own safety.

EDUCATE CHILDREN ON THE RISKS

Children and young people often want to understand why certain rules are in place. Educate them about the risks of sharing intimate images online, explaining the reasons for monitoring and other security measures. Highlight the potential for misuse, including sextortion, and the long-term consequences that can arise from these actions.

PROVIDE SUPPORT RESOURCES

Ensure that children and young people know where to seek help if they become victims of sextortion or any other online abuse. Help them identify in advance which adults they can turn to and provide them with information about trusted resources like helplines (e.g. Childline) that they can access if they need help.
